Dearest little Pauline. I want begin
at the beginning. because the last is
the most thrilling. Rathleen was a
huge success this morning - 10. a.m.
Principal - vice Principal - all students
most started - She played Gump's
marvellously - a nice lecture hall -
beautiful for sound - & the first words
of her fiddle made us all jump -
& from then on it was a Triumph
such statement - 2 pupils booked -
many more asking - I did wish
to have you beside me - they were
wonderful moments - Yesterday Sir
Ernest & Lady Dillon gave a
huge reception - about 100 - they had
asked their students & all the
musicians - a marvellous tea - love,

house - & they both had the attitude
of considering it a privilege to be
able to entertain such an artist -
Unfortunately I have to return to work
So goodness knows what mischief she
will be up to! There is to be
a broadcast - date not set - but
everything is coming out as it should -
& when I think of Montreal I am
almost humiliated - I could not
drive up - too much snow - but may
steal away next week end with the
car & work Kathleen some more.

Good bye my dear - I am
terribly sorry to hear about the
cold - take great care - or I will
have to come & boss you too

Always Noemie -
